

# JASPER COURIER

O. & N. R. R.

TIME TABLE AT LOGGOSTEET.

Peaches were sold on our streets Wednesday, for 30 cents per bushel.

Fruit distillers are getting a large amount of peaches at twenty cents per bushel.

The hot term is over, and fine weather is calling out the best feeling of our citizens.

There were five emigrant wagons passed through Jasper this week on their way West.

Judging from the appearance of the local column of last week's Press, items in and around Petersburg must be "scarce."

WHEAT.—We are informed by several farmers who have had their wheat threshed in the last few weeks, that it has not generally turned out as large as had been expected.

Mr. R. Patterson, General Superintendent of the Lake Erie & Southwestern R. R., was in town this week, going over the line of the road, and representing affairs as connected with that enterprise as progressing favorably.

"Skinning cats," is the latest term for exposing swindlers in Indianapolis, and there is enough developed in examining the records of the Radical officeholders for the past few years, to keep a regiment of reporters busy, and yet not tell half.

Pickhardt's new circular saw mill, is sawing away at a lively rate, on Mr. Ashberry Alexander's farm, about three miles from Jasper. We understand Mr. A. furnishes the mill 600 logs, and about 600 more are furnished by the neighbors. Lumber is selling at \$15 a thousand feet.

ASSAULT AND BATTERY.—We are informed that an assault and battery was committed on Friday night on Frank Betz, the hostler at the Indiana House by Joseph Oestrich, and two or three others, and Betz got badly used up. He left next morning, and hasn't been heard of since. No arrests.

Mr. H. R. Weeks, Assistant Chief Engineer of the Cincinnati & Southwestern Railway Company, passed through our town on last Monday evening, taking a horseback view of the route from this place to Mt. Vernon, preparatory to putting on a corps of engineers to survey the route. It is expected work will be pushed vigorously on this line next year.

ROY KILLER.—On Monday last John Neikam, about 13 years of age, son of Mr. John S. Neikam, was found dead in the Paoli road, about half a mile above Kellersville. He left Kellersville about half an hour before he was found, riding a horse, which it is supposed threw him, and dragged him some distance with his foot in the stirrup. Life was entirely extinct when found.

R. & N. C. R. R.—The following gentlemen were elected Directors of this company, at the Annual election on last Thursday:

Joshua Kirby, A. T. Goshorn, Henry Denis, Robert Mitchell, P. P. Dane, J. M. Glenn, W. H. Harrison, S. D. Campbell, E. H. Sabin, L. Q. DeBruler, J. Woolen, Geo. B. Bullock, R. T. Kerchul.

Dr. Sabin called upon us this week, and represents the affairs of the company as all lovely, and the goose hanging high.

Our town marshal has been tearing up the streets with a plow this week, to make them soft and muddy all winter. Except in case of dire necessity, streets and roads would be better not to have a bit of work done on them after the middle of June, and the money that is now annually spent on them in the Fall, could be used to double the advantage the succeeding Spring.

If our town had an established grade the marshal's work every year would be generally more satisfactory, and would be much more likely to accomplish permanent benefits.

THE LADY'S FRIEND For September, 1871.—The steel plate in this number is "The Haunted House," a very fine moon light picture, exquisitely cut, and a story accompanies it. The colored fashion plate is remarkably handsome. "Will He Return to Her?" leads off the literary department. There is a rich variety of stories and poems; no magazine is equal to the Lady's Friend in this point. The serial by Amanda Douglas—"A Little Money," is in best style of that popular author. Price \$3.50 a year. Four copies, \$6. Published by Deacon & Peterson, Philadelphia. Single copies for sale by all News dealers, and by the publishers, price 25 cents.

Examine well the label on each bottle. If my private stamp is not on each bottle do not purchase, or you will be deceived. See my column advertisement, and my show card. I will prosecute any one infringing on my right. The genuine Smith's Tonic Syrup can only be prepared by my self.

THE PUBLIC'S SERVANT, DR. JOHN BULL, Louisville, Kentucky, March 3, 1871.

### BURLINGTON.

Leaving the East and arriving at Chicago or Indianapolis, how shall we reach the West? The best line is acknowledged to be the C. & N. Q., joined together with the B. & M. Railroad by the Iron Bridge at Burlington, and called the Burlington Route.

The main line of the route running to Omaha, connects with the great Pacific Road, and forms to-day the leading route to California. The Middle Branch, entering Nebraska at Plattsmouth, passes through Lincoln, the State Capital, and will this year be finished to Fort Kearney, forming the shortest route across the Continent by over 100 miles.

Another branch of the B. M., diverging at Red Oak, falls into a line running down the Missouri through St. Joe to Kansas City, and all Kansas. Passengers by this route to Kansas, see Illinois, Southern Iowa, and Missouri, and also, a slight divergence, can see Nebraska also. Lovers of fine views should remember the Burlington Route, for its towns "high gleaming from afar"—its tree-fringed streams—its rough bluffs and quarries—its corn-oceans stretching over the prairie further than eye can reach.

Land-buyers will be sure to remember it, for they have friends among the thousands who have already bought farms from Geo. S. Harris, the Land Commissioner of the B. & M. R. at Burlington, Iowa, or among the four thousand home-steaders and pre-emptors who last year filed claims in the Lincoln land office, where "Uncle Sam is rich enough to give us all a farm."

### To Live Men in Dubois County.

We are desirous of publishing a paper which will advance the interests of the county in every way, and to that end request your assistance. We want you to furnish any items which you think will be of interest in your locality, any local events of interest happening we would be glad to hear of,—also any discoveries of minerals, or other articles. Remember, we cannot be everywhere at the same time, and if you want a really good paper, you can help make it so, and at the same time bring your locality into public notice. Short communications are invited upon any subject, and for those who have not been accustomed to writing for the public, we will cheerfully correct any errors their manuscript may contain. Send along the items.

Hay racks we're sure are No. one;

With more of our things all nice;

So just come in, and learn the price;

Then if you don't want to buy,

There'll be no harm 'twixt you and I.

A few good jobs have been made, I confess,

Whose success has depended on copying from

But unlike the printer—to borrow who must—

They fail to give credit, and yet call it just.

With labor, skill, genius to superintend,

New improvements I make, which the public

commend;

And when I've succeeded and got a good

thing,

The next thing I know it's on another machine!

But something else I've got to say,

Do not forget me in the pay,

When I'm in the pay, or lumber, as you see,

Nothing but money will pay from me;

So come and pay the old debt,

And make a new one, good and sound;

Now do not put it off too far,

With money in your pocket, and to spare.

And remember, I don't like to say

The work we make must be O. K.

BUCHU IS A STIMULANT, and of itself may fail to

effect a cure, but when administered com-

bined with Bromide of Potassium and other ingredients,

produces a decided effect, and causes a healthy action,

increasing the power of digestion, aiding irrita-

tion, reducing all unnatural swellings, stopping pain and

inflammation, and causing the repair and nutriment in

the human body to be greater than the waste, thus pre-

venting decomposition and decay, and giving nourish-

ment, health and vigor to the system.

My BUCHU is good for all diseases arising from ex-

haustion, such as weakness in the Back and Legs,

frombing in the region of the Heart, Weak Nerves,

Palid Countenance, Dropsy of the Skin, Scrophu-

litis, in its many forms, Ulcers, and Tumors.

If your system is affected by any of the above symp-
